# Message from NACE President

- We recognize that, while many of our members are currently in low-risk areas, we have seen how the coronavirus has impacted our member organizations.
- NACE20, scheduled for June 2-5, in Minneapolis, promises to be yet another excellent opportunity to gather, learn, share, and celebrate.
- We will continue to monitor the CDC and other credible sources and will keep you apprised.
- In addition, we are working to ensure robust and effective health and safety standards as part of planning for our annual gathering, and I want to assure you that we are working closely with the Minneapolis Convention Center, hotels, and our other partners in Minneapolis to ensure all appropriate measures will be in place both behind the scenes and out in front.

# NACE Action Registry

We are extending **the discounted early-bird rate for NACE20 through June 5, 2020.** This will provide you with the flexibility to make last-minute decisions about attending conference, if necessary.

- The extended early-bird rate also applies to the **preconference workshops**, which are scheduled to coincide with NACE20.
- We have modified our policies for NACE events, including NACE20, the preconference workshops, and 2020 executive leadership symposium:
  - Full refund on registration to anyone who must cancel their paid registration for an in-person event scheduled between now and the end of June 2020 due to illness or travel restrictions implemented by their organization. In addition
  - We are reaching out directly to those who are hosting NACE in-person events in the next six weeks to determine whether those events will proceed as planned
  - We will keep registrants apprised of the status of those events as well as their options.

# NACE Action Registry

**Regular updates: to keep the community up to date on what is happening both in terms of NACE events and on campus and in college recruiting:**

- We have created the coronavirus updates page: **[naceweb.org/updates](https://naceweb.org/updates)**.
- This will provide you with easy access to the latest results from our quick poll of members, articles about how members are managing the virus in their organizations and institutions, and news about conference and other NACE events.
- We are also providing a place for our members to share resources—see the **[NACE community library > coronavirus resources](#)** (member login required).
